

BENEFICIAL INSECTS WORKSHOP

Beneficial insects work around the clock to protect your garden from pests. Meet the diverse cast of predators that provide free pest control, discover plant types and management practices that provide food, water, and shelter to attract and sustain beneficial insects that help your garden thrive.

**Wednesday, March 15
6:30 - 9:00 pm**

**McMenamin's Kennedy School
Community Room
5736 NE 33rd Ave, Portland**

Register online at: www.emswcd.org/workshops
