* House Bill 2001 requires cities of more than 10,000 residents to allow one or more middle housing types (attached houses, duplexes, triplexes, fourplexes and cottage clusters) in all residential zones. Portland must adopt rules to comply with the bill's requirements by June 30, 2022. The Residential Infill Project already complies with most of this new law. Tthe Residential Infill Project does not cover middle housing types in the R10 and R20 zones or cottage clusters. So, these zones and cottage clusters will need to be addressed separately in a follow-up project.

** Senate Bill 534 requires cities to recognize platted lots in all zones that allow single dwellings, subject to limitations on natural resources, hazards, slopes and infrastructure.
